U.S. Patent and Trademark Office PTOL-326 (Rev. 1-04) Application/Control Number: 10/664,258

Art Unit: 2822

## **DETAILED ACTION**

1. This action is in response to the application filed September 17, 2003.

## Election/Restrictions

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claim 1-6, drawn to a semiconductor having a MEMS device, classified in class 257, subclass 414.
  - II. Claims 7-14, drawn to the method for manufacturing a semiconductor device having a MEMS, classified in class 438, subclass 294.

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). The product can be made by the following methods: a) the seed layer could be etched thereby eliminating the step of selectively removing.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Application/Control Number: 10/664,258

Art Unit: 2822

Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement be

traversed (37 CFR 1.143).

Conclusion

3. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Monica Lewis whose telephone number is 571-272-1838.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Amir Zarabian can be reached on 571-272-1852. The fax phone number for

the organization where this application or proceeding is assigned is 703-308-7722 for

regular and after final communications. Any inquiry of a general nature or relating to the

status of this application or proceeding should be directed to the receptionist whose

telephone number is 703-308-0956.
